

Learning with Westie

English

Students identify and analyse persuasive devices used by authors. They investigate characters in stories and how the author builds understanding.

Science

Is it living?

Maths

Students apply mental and written computation strategies. They work with fractions develop their understanding of larger numbers

When they read, they are working on fluency and inferring an author's meaning.

HASS

How do our communities function?
What are our celebrations and why do they exist?

Technology

Students investigate food production.

HPE

Students continue to develop water confidence and stroke development.

They investigate symmetry and compare areas. They represent money values in various ways.

Arts

Students develop movements and facial expressions to express themselves.

Yr 3/4

Term 1
